ABOUT THE FOUNDER

Usama Ali is the visionary Founder and CEO of Dynixis. His journeybegan hands-on, spending four years as a Full Stack Developer where he mastered the intricacies of digital creation. This deep technical expertise provided the foundation for his entrepreneurial leap, leading him to establish Dynixis in 2023 as a solo web development studio.

Under Usama's strategic leadership, the company has experiencedremarkable growth, evolving into a full-service digital agency. His direction has been instrumental in expanding its offerings and earning accolades like "Top IT Solution Provider" from TechReview. Today, he leads a dedicated team of 25+ professionals, serving adiverse international clientele across 25 countries worldwide.

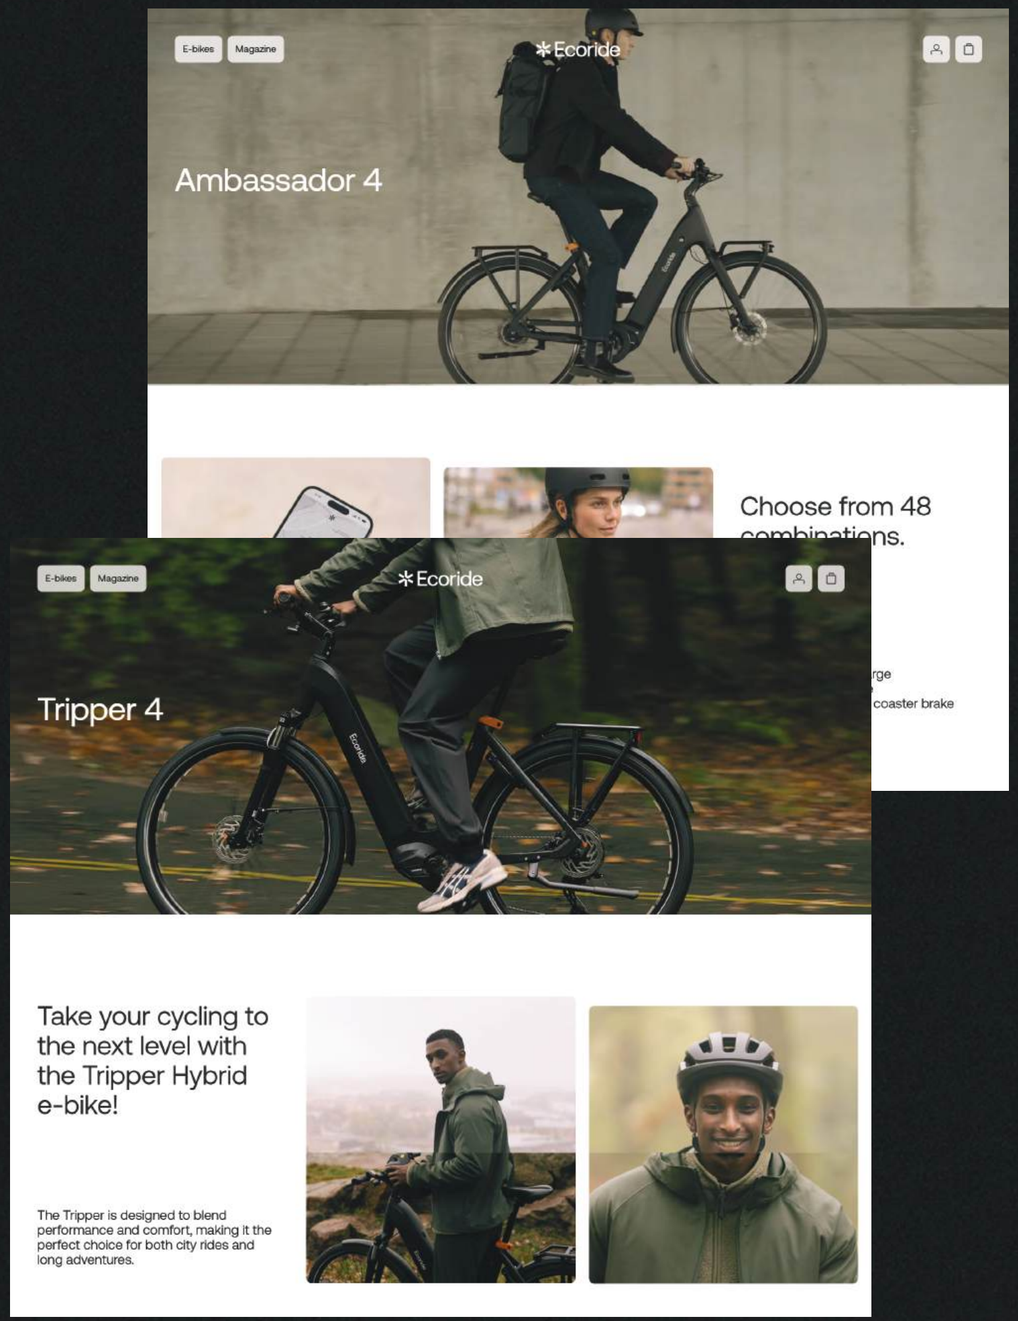
CUSTOM WEBSITE



Client: Ecoride

Elecrtic Mobility Solutions

Php Mysql Docker

The Challenge:

Ecoride needed a dual-purpose platform supporting both e-commerce sales and rental services for their electric mobility products. The website required complex inventory management, rental scheduling, payment processing for both purchase and rental options, and multi-language support for the Norwegian market. The platform needed to handle real-time availability checking and seamless switching between sales and rental workflows.

Our Solution:

We developed a custom Laravel-based platform with dual e-commerce and rental capabilities. The solution included real-time inventory management, dynamic pricing for rentals, integrated payment processing, multi-language support, and a responsive design optimized for both desktop and mobile users. We implemented advanced booking systems, product availability calendars, and a unified admin dashboard for managing both sales and rental operations.

+92 318 3445678 | WWW.DYNIXIS.COM

Client: SonicWeave

Music Collaboration Platform

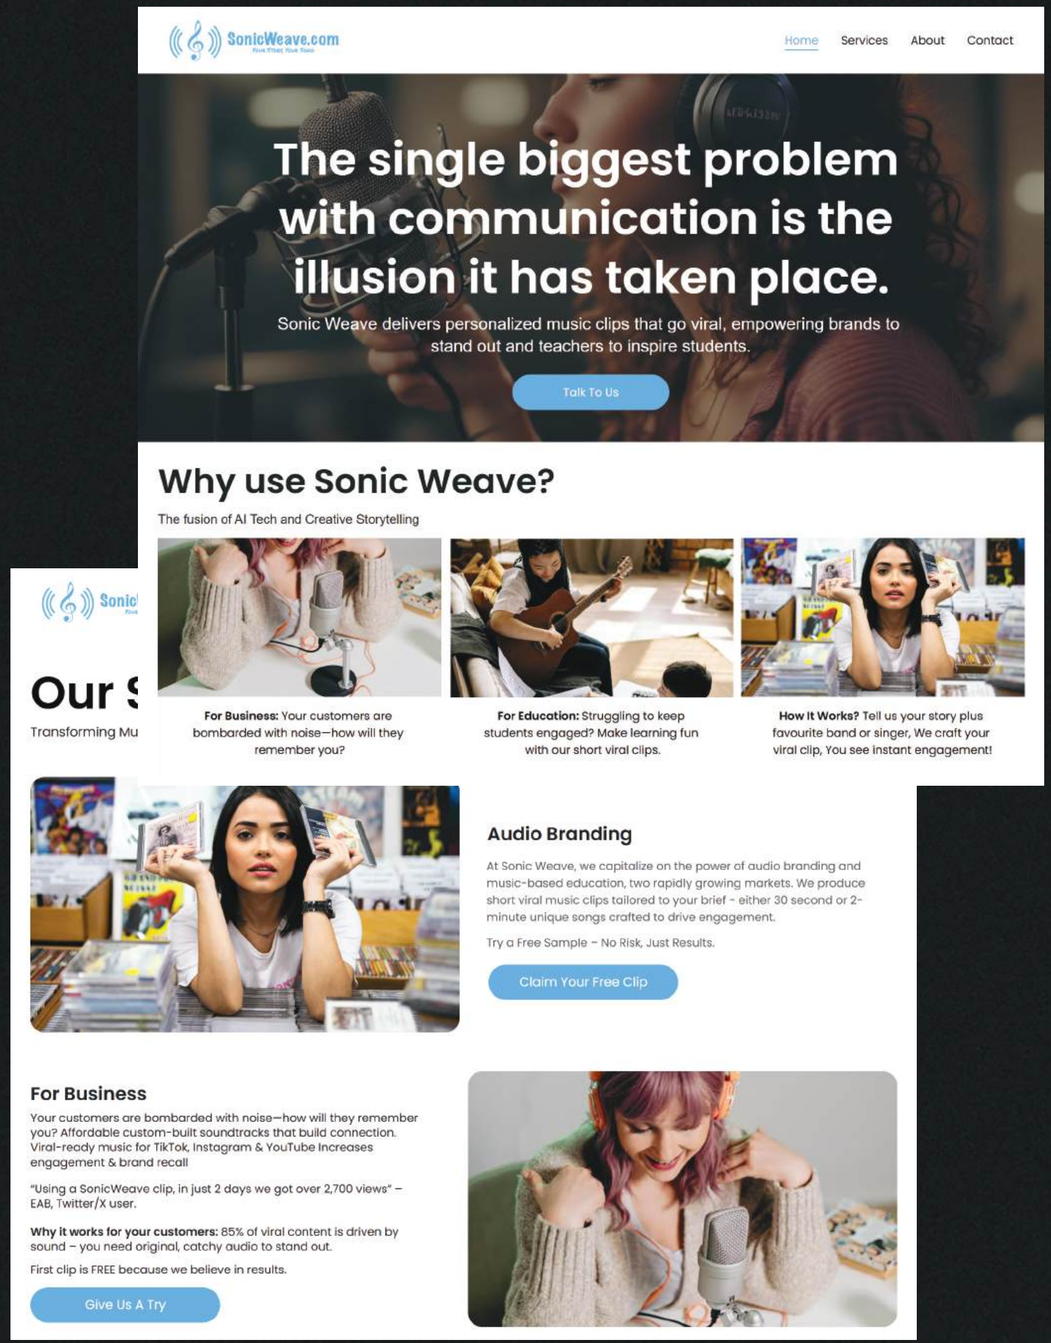
Php Mysql Javascript

The Challenge:

SonicWeave needed to enhance their existing music collaboration platform with new social features, improved audio handling, and better project management capabilities. The platform required performance optimizations to handle increasing user base and larger audio file uploads while maintaining smooth real-time collaboration features.

Our Solution:

We implemented new social features including user following, notification systems, and enhanced project collaboration tools. We optimized the audio upload and processing system, improved database performance, and added real-time messaging capabilities while maintaining the platform's core functionality and user experience.



+92 318 3445678 | WWW.DYNIXIS.COM

SOFTWARE

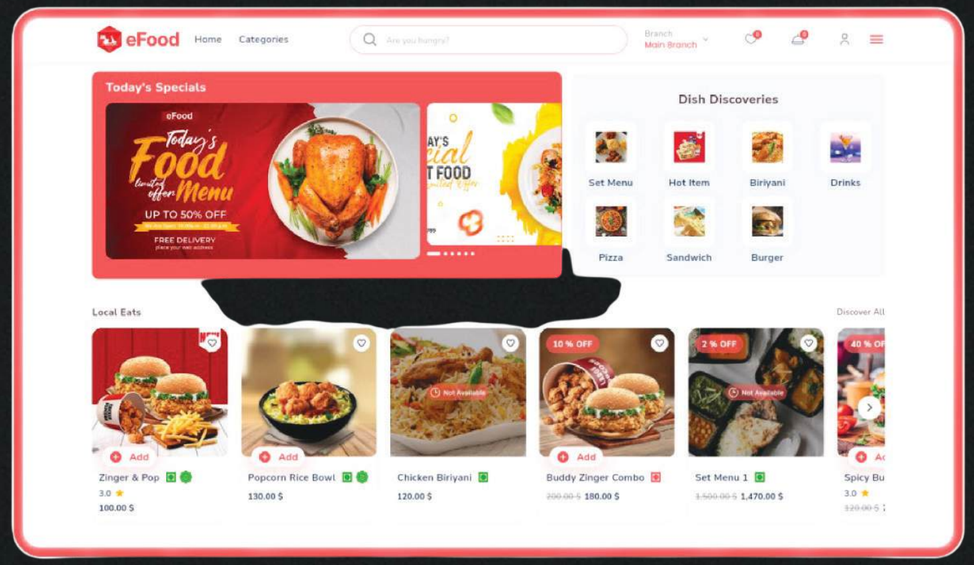
Client: JOEY DTLA

Multi-Branch Restaurant Management

Laravel Flutter Google Maps API

The Challenge:

JOEY DTLA's fragmented systems couldn't manage its multi-branch operations, leading to inefficiencies and inconsistent customer experiences across locations with different menus and delivery zones.We built eFood, a unified restaurant ecosystem. This all-in-one platform features centralized management with branch-specific control, enabling separate menus, pricing, and delivery zones. It integrates online orders, dine-in (via QR codes), delivery, and POS into a single, seamless system.

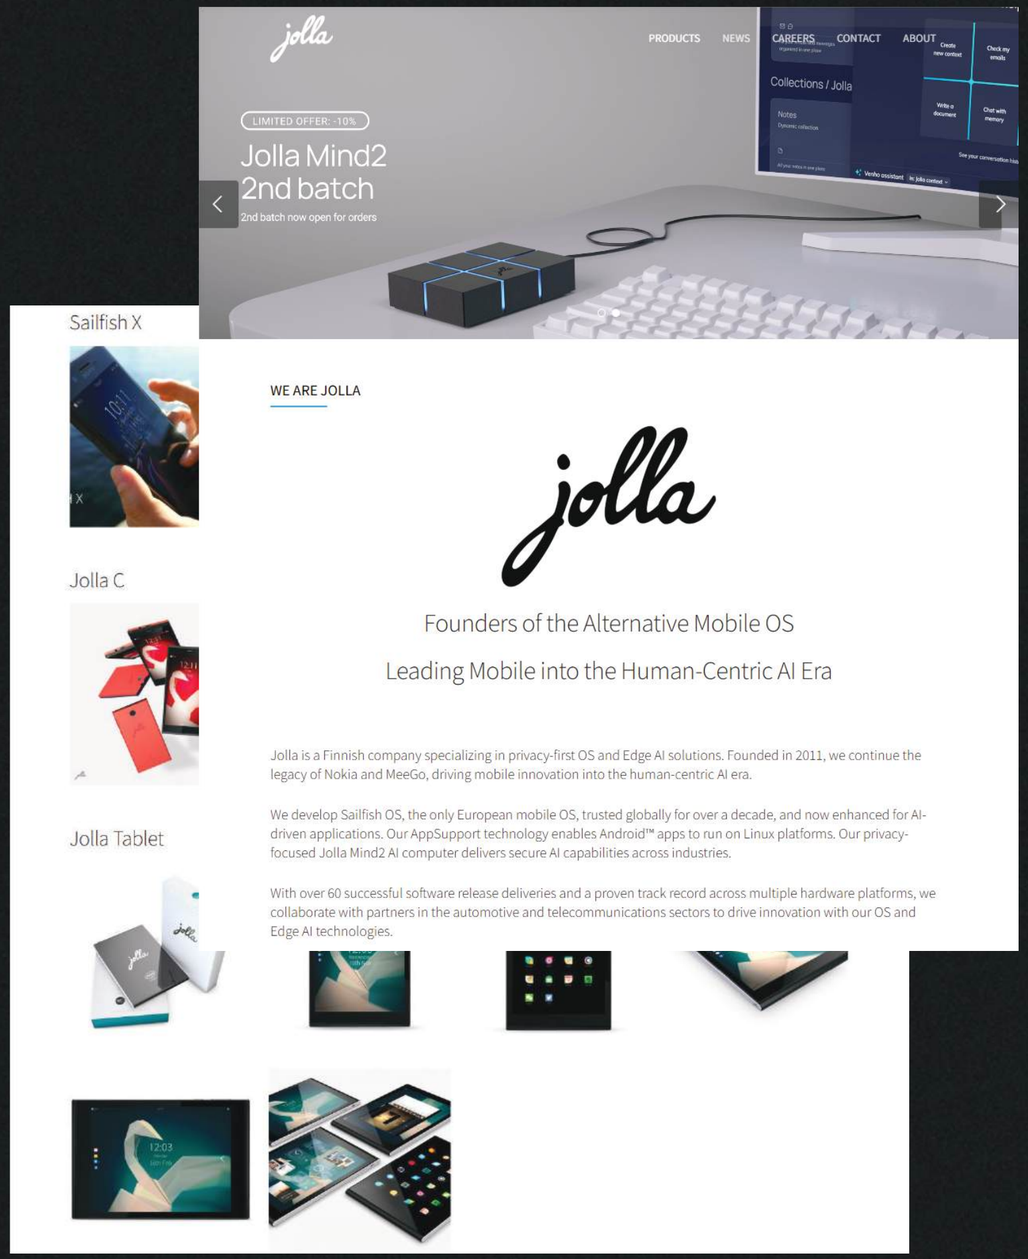


Our Solution:

We built eFood , a unified restaurant ecosystem. This all-in-one platform features centralized management with branch-specific control, enabling separate menus, pricing, and delivery zones. It integrates online orders, dine-in (via QR codes), delivery, and POS into a single, seamless system.

+92 318 3445678 | WWW.DYNIXIS.COM

WORDPRESS WEBSITE



Client: Jolla Ltd

Mobile Tech Innovators

Wordpress | Elementor Pro | Woo Commerce

The Challenge:

SonicWeave needed to enhance their existing music collaboration platform with new social features, improved audio handling, and better project management capabilities. The platform required performance optimizations to handle increasing user base and larger audio file uploads while maintaining smooth real-time collaboration features.

Our Solution:

We implemented new social features including user following, notification systems, and enhanced project collaboration tools. We optimized the audio upload and processing system, improved database performance, and added real-time messaging capabilities while maintaining the platform's core functionality and user experience.

+92 318 3445678 | WWW.DYNIXIS.COM

Client: Perfect Client USA

Digital Marketing Agency

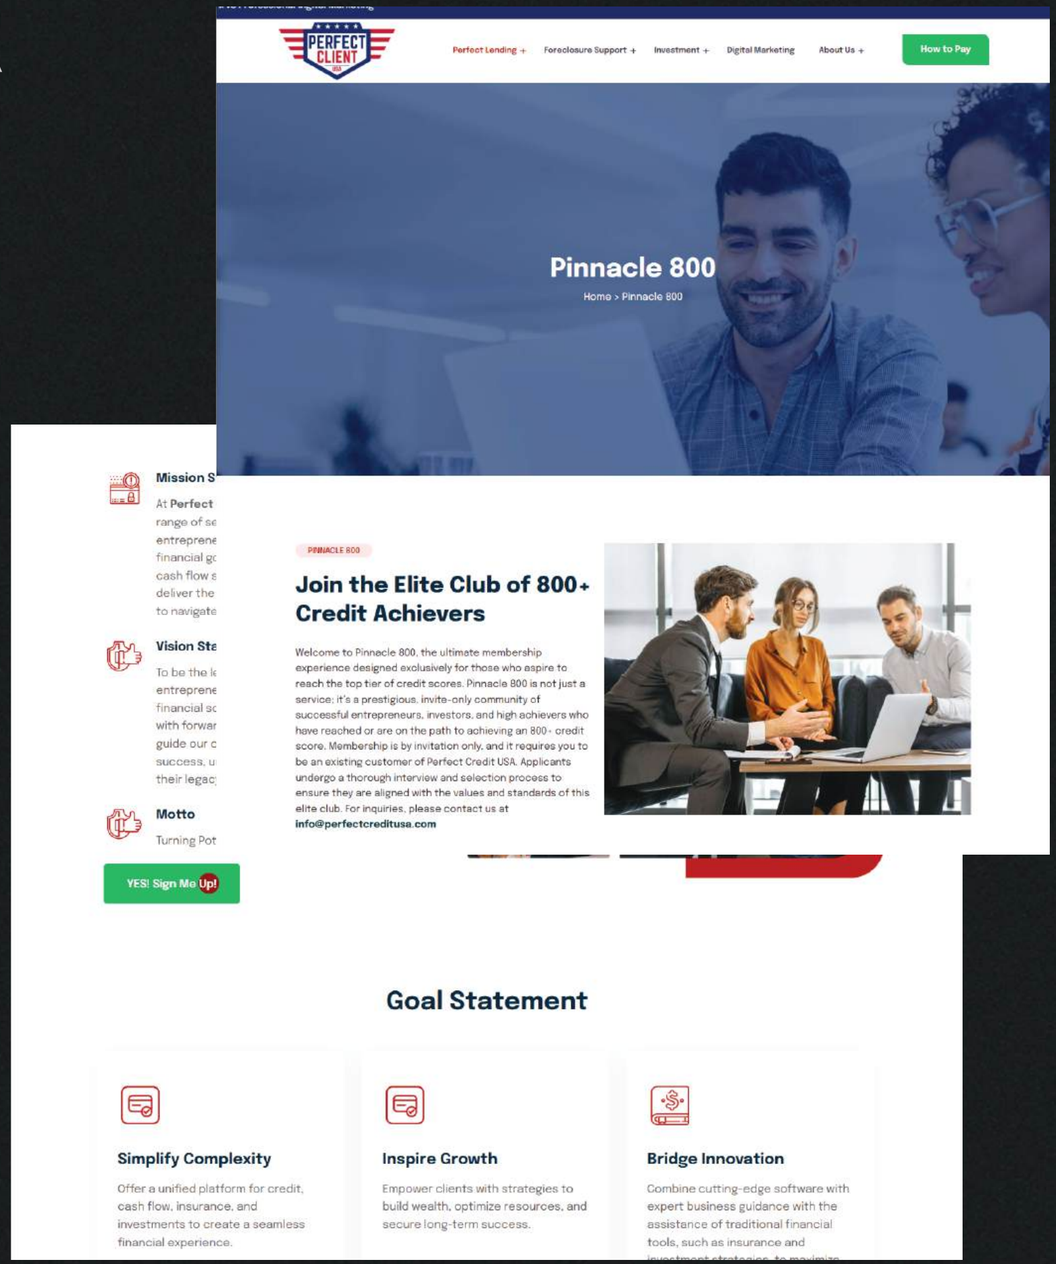
WordPress | WP Rocket | HubSpot Integration

The Challenge:

Perfect Client USA needed a high-converting website that would effectively communicate their digital marketing services while generating qualified leads. The challenge was to create a visually appealing site that would establish trust, clearly demonstrate their client results, and incorporate strategic conversion elements throughout—all while maintaining fast loading times and mobile responsiveness for their target audience of business owners.

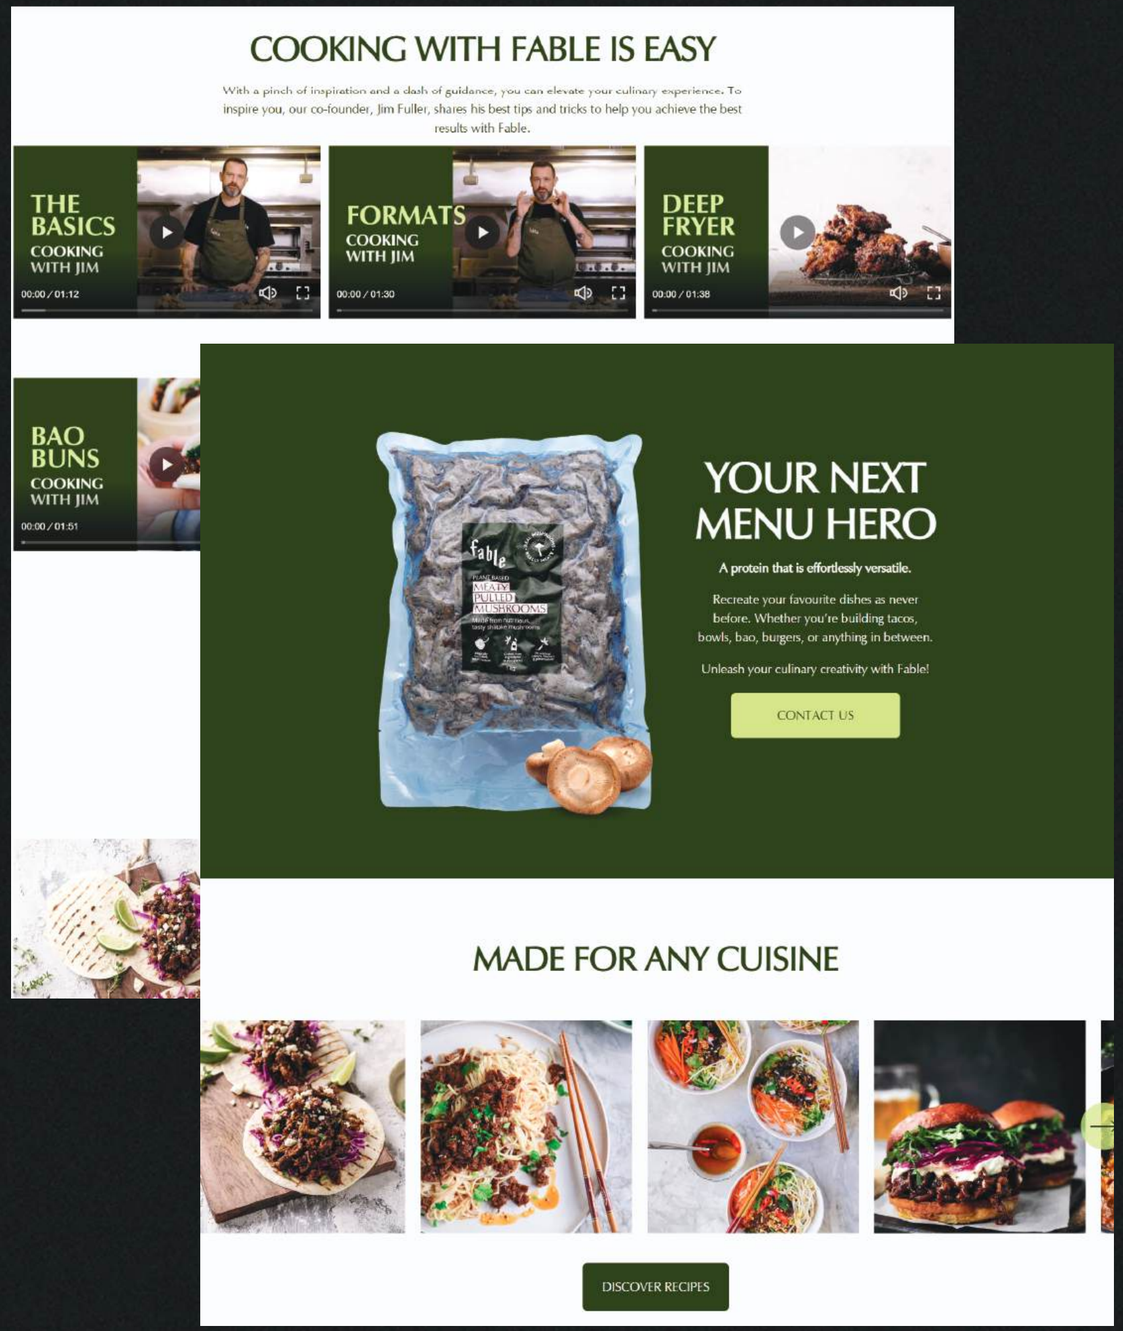
Our Solution:

We developed a conversion-optimized WordPress website using Elementor with strategic placement of lead capture f orms, compelling case studies, and clear calls-to-action. T he design emphasizes social proof with client results and testimonials, while maintaining a professional aesthetic that builds credibility. We implemented marketing automation integration, performance tracking, and SEO optimization to ensure the site would effectively generate and capture qualified leads.



+92 318 3445678 | WWW.DYNIXIS.COM

SHOPIFY WEBSITE



Client: Fable Food

Plant-Based Meat E-commerce

Shopify Plus | Liquid Templating | Subscriptions

The Challenge:

Fable Food needed a comprehensive Shopify Plus solution to scale their direct-to-consumer business, handle complex inventory management across retail and online channels, and effectively communicate their sustainability story. The platform needed advanced subscription functionality, recipe integration, and a seamless brand experience that could support their rapid growth in the competitive plant-based food market.

Our Solution:

We developed a fully custom Shopify Plus store with advanced features including recurring subscriptions, wholesale portal integration, custom product bundles, and enhanced educational content sections. We implemented a robust inventory management system, recipe database integration, and a mobile-first design that effectively showcases their products and brand mission.

+92 318 3445678 | WWW.DYNIXIS.COM

Client: Primeroots

Ayurvedic Wellness E-commerce

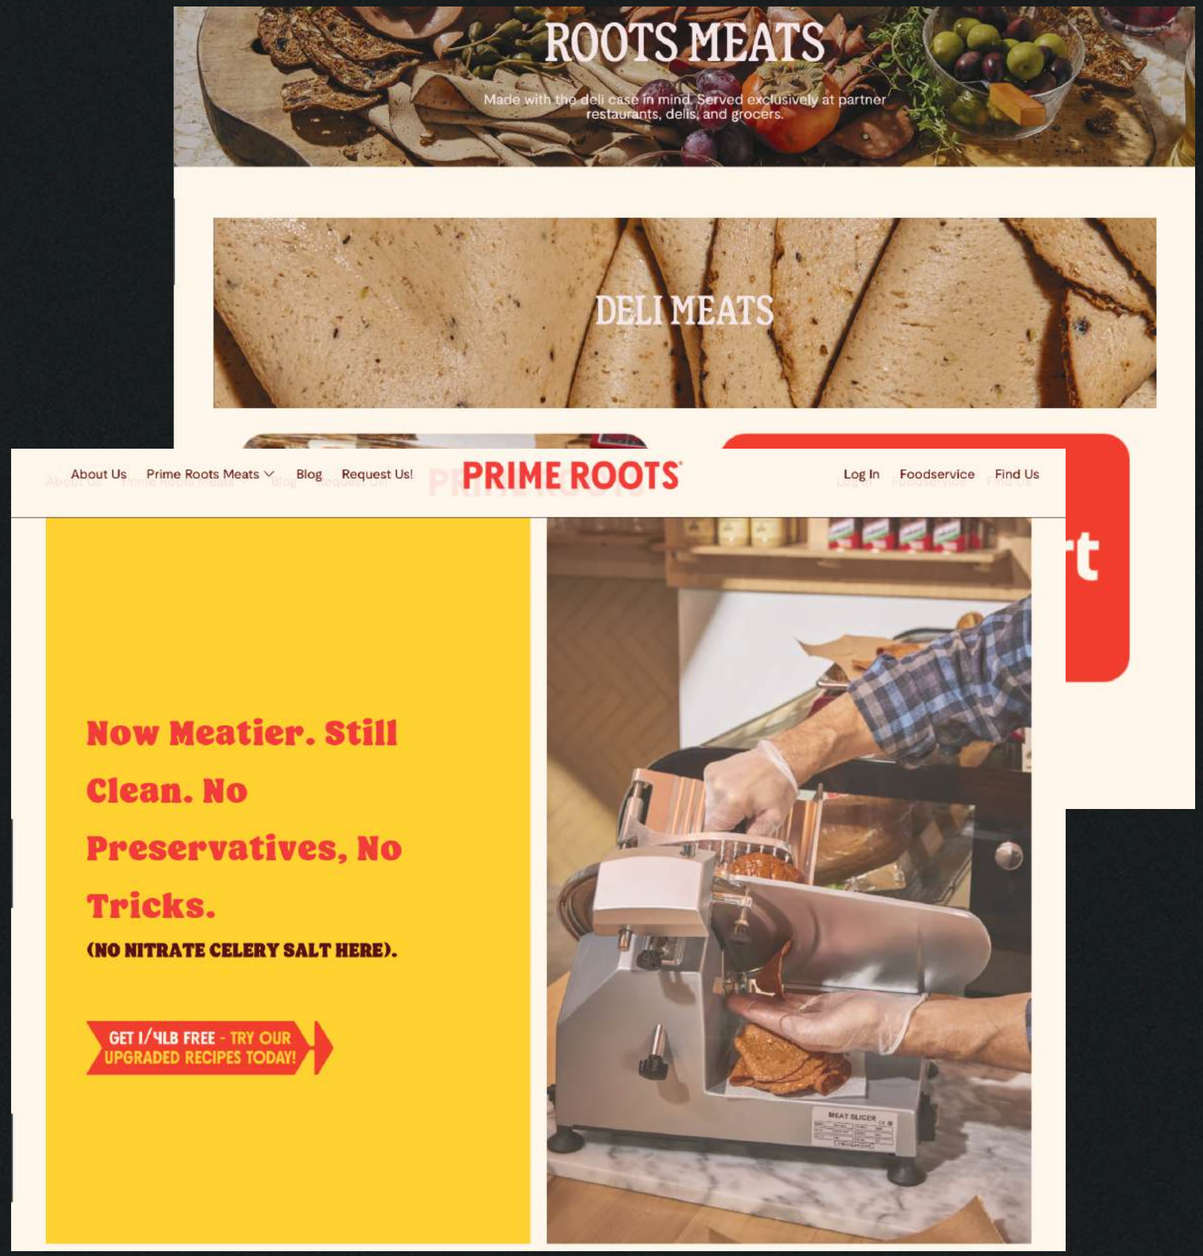
Shopify Plus | JavaScript | Yotpo

The Challenge:

Primeroots needed a premium e-commerce platform that effectively communicates their Ayurvedic heritage while providing a modern shopping experience. The website required elegant product showcasing for their hair care and wellness products, subscription management, educational content about Ayurveda, and seamless integration with their inventory and fulfillment systems while maintaining a luxury brand aesthetic.

Our Solution:

We developed a custom Shopify Plus store with a focus on premium design that reflects Primeroots' Ayurvedic philosophy. The solution included advanced product visualization, subscription management, educational content sections, and seamless checkout experience. We implemented custom product filters, ingredient storytelling, and a mobile-responsive design that maintains the premium brand experience across all devices.



+92 318 3445678 | WWW.DYNIXIS.COM

DRUPAL WEBSITE

Client: SEMI International

Global Semiconductor Association

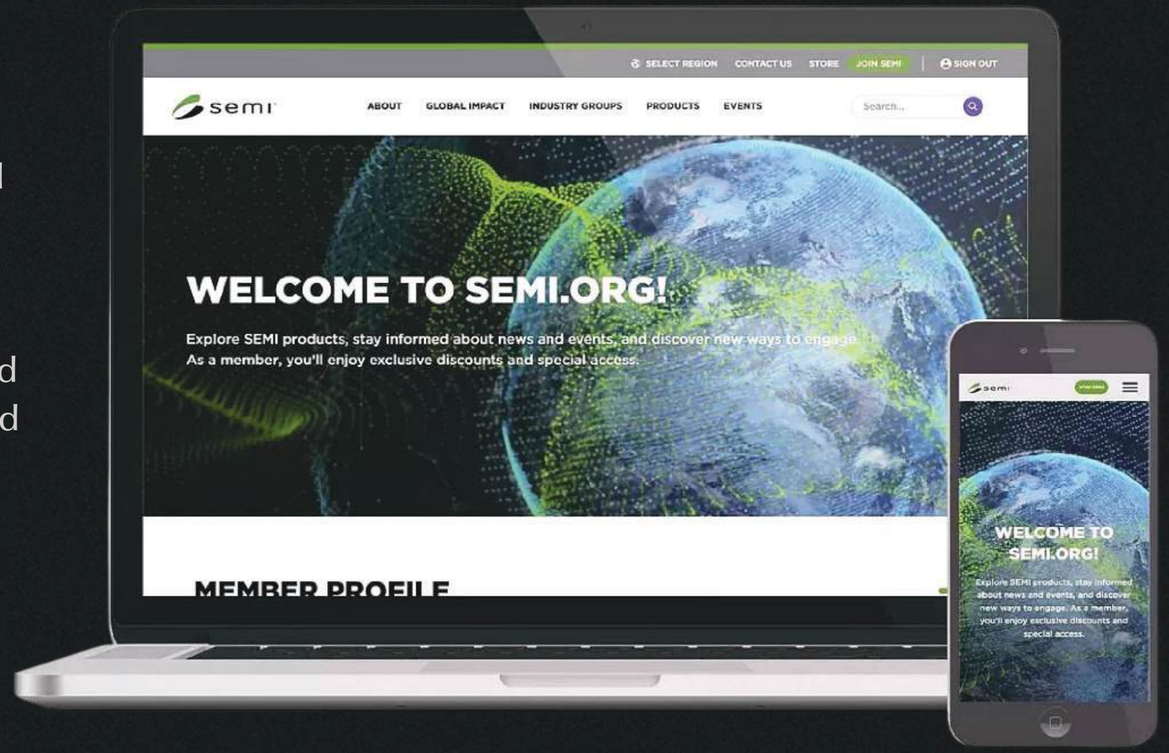
Drupal 9 | Salesforce API | SSO Integration

The Challenge:

SEMI, a global industry association with 2,400+ members and 1.3M professionals, needed a comprehensive Digital Experience Platform modernization. Their outdated platform struggled with poor usability, fragmented analytics, irrelevant traffic, and lacked personalization capabilities. The multi-regional, multilingual site required enhanced performance, better content management, and reliable analytics across different regions and languages.

Our Solution:

We developed an enterprise-grade Drupal platform with 150+ reusable components, implemented GA4 analytics with region-wise tracking, integrated Salesforce for personalized experiences, and added Shopify integration for contextual product delivery. We completely redesigned the homepage, event pages, and navigation while cleaning up irrelevant traffic and implementing robust SEO strategies.



+92 318 3445678 | WWW.DYNIXIS.COM

Client: ASDSO

WordPress to Drupal CMS Migration

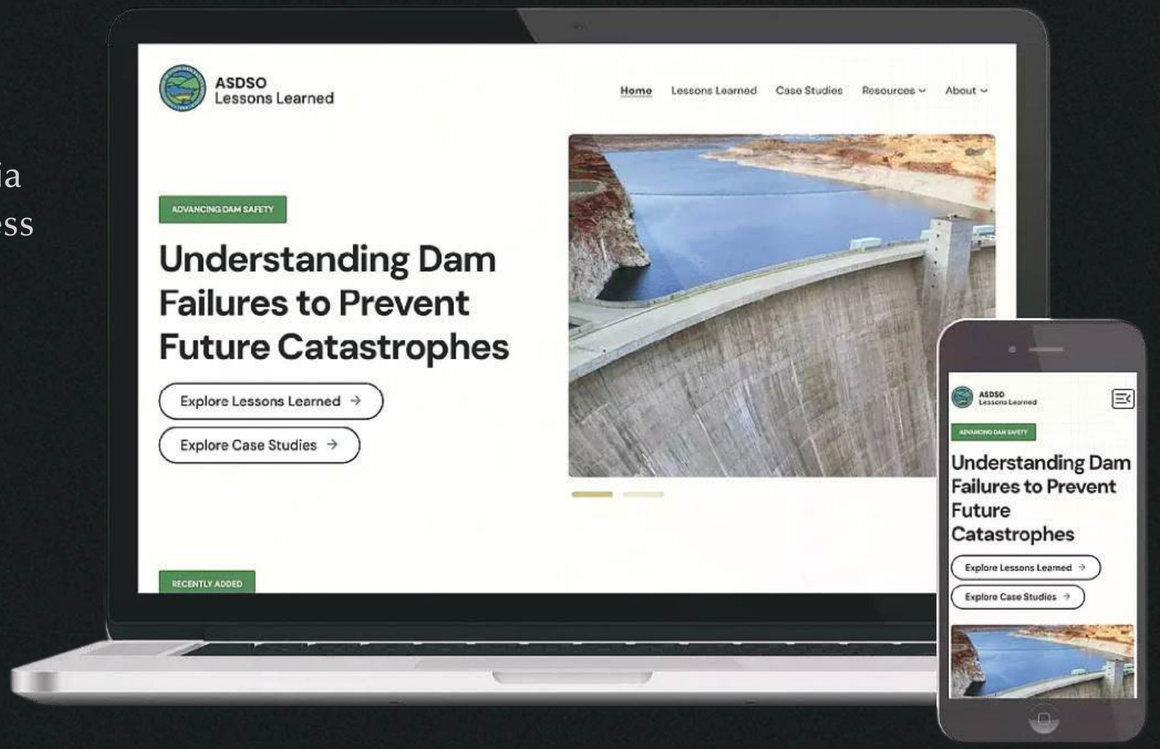
Drupal CMS | WordPress Migration | CI/CD Pipeline

The Challenge

DamFailures.org, an educational initiative by ASDSO, was struggling with WordPress security issues, improper media structure, and limited search functionality. Their WordPress environment had maintenance challenges and couldn't provide the advanced content management capabilities needed for their extensive database of dam failure case studies, technical papers, and educational resources

Our Solution

Our team at Dynixis executed a complete WordPress to Drupal CMS migration with a redesigned user experience. We implemented Drupal's Layout Builder for drag-and-drop content management, advanced search capabilities, and improved media organization. The migration included comprehensive content restructuring, accessibility enhancements, and performance optimization while meeting the aggressive 6-week timeline.



+92 318 3445678 | WWW.DYNIXIS.COM

APP DEVELOPMENT

Client: Immobi Real Estate

Real Estate Management Platform

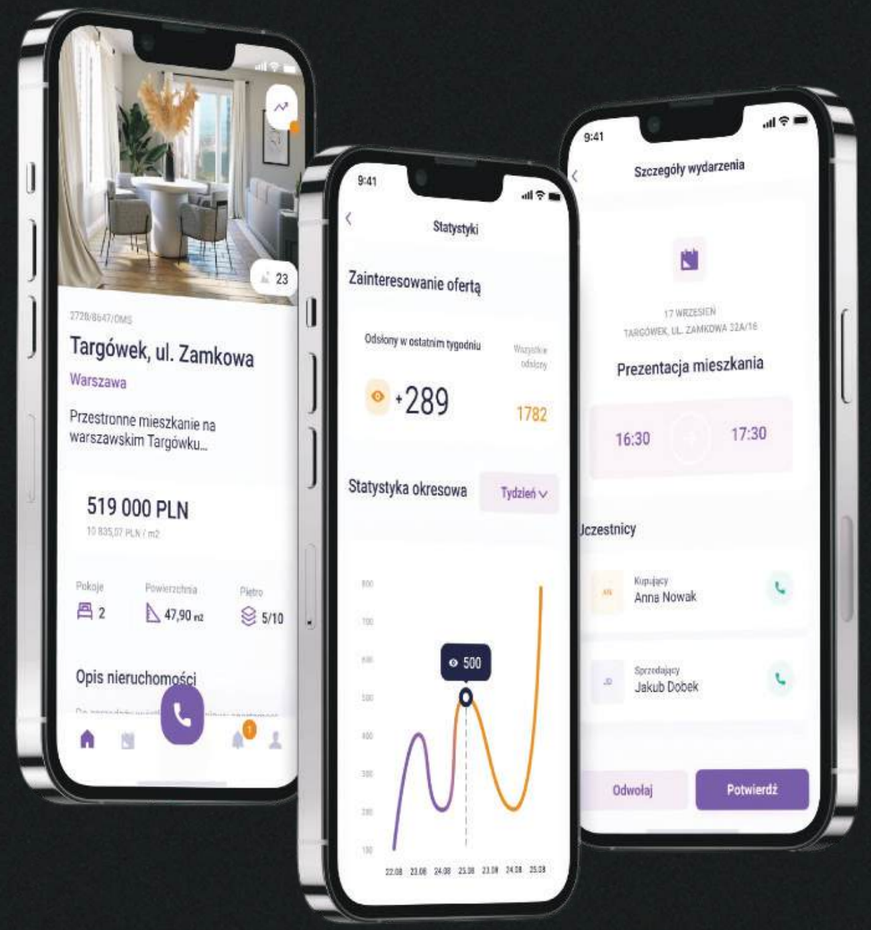
Flutter Firebase Push Notifications

The Challenge:

Real estate agents faced challenges with excessive paperwork, relentless phone calls, and inefficient property management processes. Both agents and home buyers sought a streamlined, user-friendly solution to simplify property listings, appointment scheduling, and document management while delivering tailored property recommendations based on individual preferences. Advanced analytics could empower agents to optimize pricing strategies and market trends, ensuring a more efficient and personalized experience for all parties involved.

Our Solution:

We crafted an advanced Flutter mobile app for iOS and Android users, paired with a robust Vue.js web platform tailored for real estate agents. The solution streamlined paperwork automation, optimized appointment scheduling, delivered highly personalized property recommendations, and provided real-time analytics to boost agents' sales performance. Additionally, the platform integrated secure cloud-based document management and AI-driven insights to enhance decision-making and elevate the user experience for both agents and clients.



+92 318 3445678 | WWW.DYNIXIS.COM

Client: Choresmiths

Local Handyman Marketplace

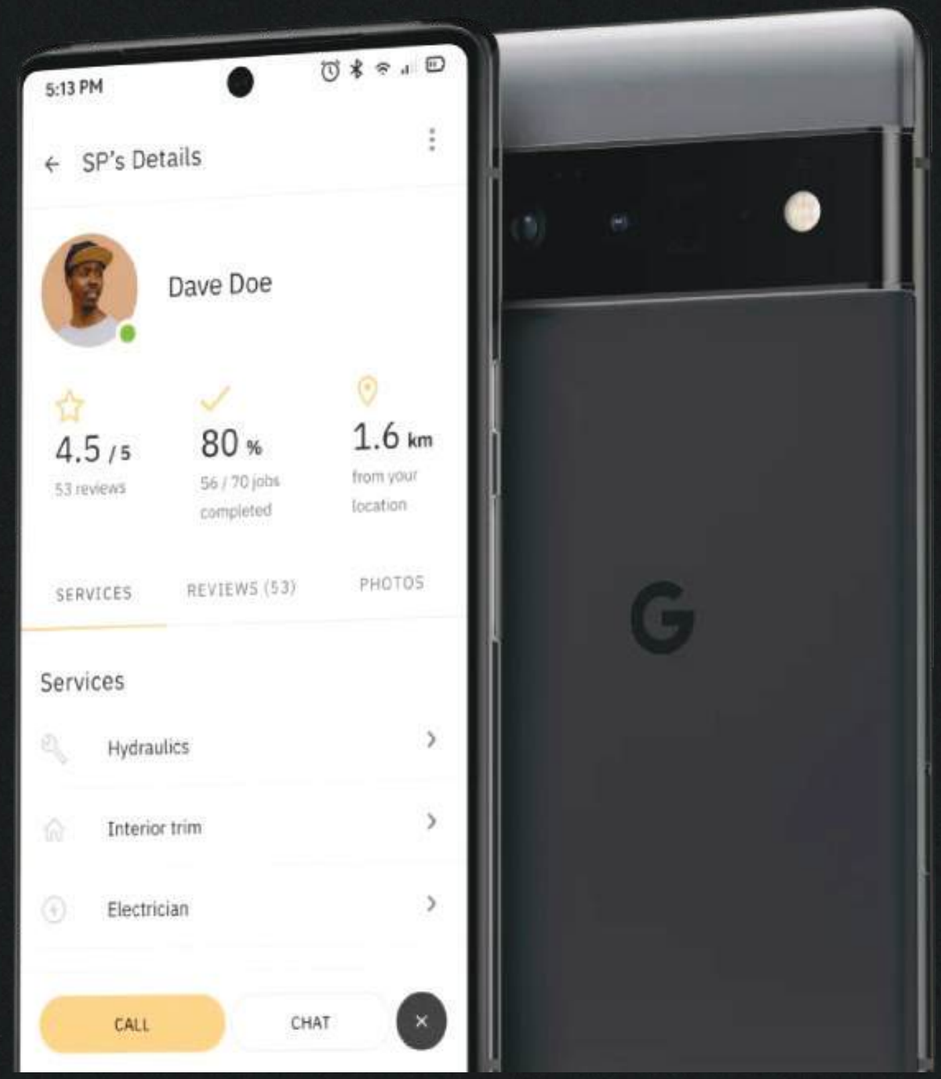
Android Native Java Firebase

The Challenge:

Creating a handyman marketplace app for Nigeria that works efficiently on older mobile devices with limited internet bandwidth. The solution needed to overcome hardware limitations, low connectivity, and provide a seamless experience for both clients and service providers while building community connections.

Our Solution:

We developed a lightweight Android-native application optimized for older devices and low bandwidth conditions. The solution includes offline functionality, SMS notifications for users without internet, efficient data storage, and a simple yet effective UI that works across various device specifications common in the Nigerian market.



+92 318 3445678 | WWW.DYNIXIS.COM

Client: Travel & Stay

Booking Mobile App

Flutter Node.js Firebase

The Challenge:

We developed a lightweight Android-native application optimized for older devices and low bandwidth conditions. The solution includes offline functionality, SMS notifications for users without internet, efficient data storage, and a simple yet effective UI that works across various device specifications common in the Nigerian market.

Our Solution:

Designed a clean card-first UI with prominent search and pill filters, category rails, and a streamlined listingImplemented map view with Google Maps, saved lists, ratings & reviews, and secure in-app payments (Stripe/Razorpay).
